LANGUAGES: HTML, CSS, Javascript, Ruby

FRAMEWORKS: Node.js, Rails, AngularJS, Express.js

LIBRARIES: jQuery, Bootstrap, Materialize, Dynamicsjs, React

DATABASES: Postgres, Sequelize, MongoDB

OTHER: AJAX, Heroku, Git/Github, JSON, Sequelize

PROJECTS

ReadMe --- clubreadme.herokuapp.com

ReadMe is a book club app built with Ruby on Rails. It allows users to search for books, start and join clubs, and have discussion threads about their favorite books with other users.

LettuceTurniptheBeet --- turnipthebeet.herokuapp.com

A full stack application built with Expressjs, Sequelize, Javascript, jQuery, HTML, CSS, and Cloudinary: LettuceTurniptheBeet is a Gardening Guide and Reference for growing vegetables in the Seattle area.

PartySmart --- partysmart.herokuapp.com

PartySmart is an app built using the MEAN stack (MongoDB, Express, AngularJs and Node). It promotes responsible drinking: users can get estimate their blood alcohol content, track their drinking in an evening, and calculate approximately how long until it is safe (if at all) to drive home.
